FINANCE AND TRADE.

FINANCIAL BUSINESS WAS again very dull yesterday; some of the banks reported a better receipt of exchange, but the present lull in the cotton market is threatening a very low supply. Rates of exchange remain at the usual figures, buying on the east and north at par, and selling at | premium; on New Orleans buying at & discount, selling at par. The New York Herald sees very present attitude of the eastern cotton manufactures; it says: "After a long entirely stopped, they are nearly all once more in full activity. This is not merely a good local symptom, but a most hopeful general symptom. It betokens a reviving ability to purchase goods in all parts of the country, because full time in the mills will turn out six or eight times the amount of goods that can find a market in the New England States." The New York Bulletin, of April 6th, says that bales mixed at \$2250. with demand bills not obtainable below 4.90, there is a clear profit for all in oing gold, and unless the price of gold advances the summer export of gold will begin earlier than usual. If gold should advance, domestic produce will take the place of gold in shipments, and coin shipments will be reduced. This is desirable, for the treasury has heavy disbursements to make up to the middle of June. The treasury will be weakened, and it is of the first importance that as much gold as possible should remain in the country. "A large short interest in the market, with gold flowing out of the country, and with the stock in the treasury reduced. would be about the worst condition of affairs for the merchants which can be imagined. It is, therefore, wise, whatever else is done, for merchants not to get 'short' of gold. If they believe the price will go lower, and wish to carry on their business on that theory, they should borrow their gold on time. If they believe the price will be higher, they should buy as much gold as they want up to September, when cotton bills will begin to appear. If they wish to take no risks at all, so far as gold speculators are concerned, they should close their gold account with every transaction involving gold. It is a question whether, taking year in and year out, the latter is not after all the most profitable as well as the safest course." The brokers were paying 1134 (a)1134 for gold. The

THE COTTON MARKET looked blue yesterday. There was a good show of cotton on the tables, but the demand was very slight. Holders exhibited a desire to sell, and to sell from round lots showed a disposition to shade prices. New York closing telegrams quoted middling at 16gc, with a dull market; New Orleans had a fair demand 16c; Liverpool sold 12,000 bales at 8d; Savannah, 16e; Mobile, 15 13-16e; Charles-ton, 16gc; Galveston, 15gc; Memphis, 15gc. The market was dull; sales, 500 bales. of which spinners took 300, exporters 50, speculators 150 bales. The New York Bulletin of Tuesday reports a dull market. Holders do not press sales, but of-ferings are larger; cases have occurred where a better margin was gained south than here. In futures the duliness caused surprise and disappointment. Exactly where to locate the checking influences would be difficult; part comes from the great caution that governs buyers. We have now a weekly boat to Vicksburg, and it gives shippers an opportunity of forwarding cotion for New Orleans every Friday; last evening the Illinois took from here 473 bales, which will be re-snipped at Vicksburg for New Or-

NOTICE.

BY virtue of the authority vested in us by the deed of trust executed to us as trustees on the 10th May, 1857, by the city of Memphis, by A. H. Douglas, Mayor, and which is registered in the Register's office of Snelby county. Tennessee, in book 29, page 48, et seq., and which conveys to us the property hereinafter described in trust to secure the payment of \$300,000 of the bonds of the Memphis and Little Rock Railroad Company, and upon request of certain of the holders of said bonds, we will,

On the 3d day of May, 1875,

ceed to expose the said property to sale, on morning, and the day was bright and pleasant. The rain of the evening before did good work in laying the dust and bringing out the foliage of the shrubbery and forests. We have no complaints to make about the weather yesterday. The river here rose an inch yesterday, and stands now thirty-three feet above the dead-line. The changes

we are satisfied the title is perfect, but we convey only as trustees,

McKae, Smith, Scott & Collier, for trustees and bondholders.

These spectacles are manufactured from "MINUTE CEYSTAL PEBBLES" melted together, and are called DIAMOND on account of their hardness and brilliancy.

Having been lested with the polariscope, the diamond lenses have been found to admit fifteen per cent, less heated rays than any other pebble. They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles. DR. CURTIS'

Last Professional Season in New Orleans. DR. E. DE F. CURTIS, M. D., F. R. C. S., Author of "Manhood," "Medical Essays on Marriage," Etc.,

While returning his sincere thanks to his numerous patients in Memphis and the adjacent Southern country for the flattering evidences of their confidence and esteem received by him, desires to announce that he

Will Leave New Orleans on the 1st day for San Francisco. California, where he has business interests to protect, and which will require his presence for the next two years, at least. On making this announcement thus early, it is for the purpose of saving from disappointment many who desire to place themselves under his care, but who fail to call till the last few days of his say, and in fact, as in former years, have called at his office after his departure, much to his regret and their disappointment. In order, therefore, that no one may have an excuse for missing the opportunity of His Personal Attention, those who wish to place themselves under his care

portunity of Bis Personal Attention, those who wish to place themselves under his care should CALL AT ONUE at his rooms.

No. 9 Kampart st., bet. Caual and Castombouse sts., New Orleans, La.,
Daily, from 10 a.m. to 3 p.m., or from 6 to 8 p.m. On Sundays, Il to 1 p.m., only.

DR. CURTIS has devoted himself for a period ranging over twenty years, and adopted, as his specialties, the treatment and cure of

Nervous and Physical Debility.

Nervous and Physical Debility,

Exhausted Vitality, Premature Decline Abuse of the System, and such general functional derangement as springs from the above causes, or are incident to an enervated and depleted condition of the organs.

DR. CURTIS addresses himself to those who have already yielded to the suggestions, and besought the care of ignorant advertising charlatans, from whom they have received on benefit, and who, in fact, have done them more material harm than practical good. It is conceded that Medicine, like all other sciences, is progressive, and every year but records some new development or marked advance. By a felicitous combination of remedies of acknowledged curative powers, DR. CURTIS has so arranged and adapted his treatment as to afford not only immediate relief, but radical and permanent cure.

The Medical Times says: "Dr. Curtis" system of treatment, the result of twenty year' successful practice, differs from all others in general use and commends itself to the afficied as the only true source of relief. Many cases pronounced incurable have yielded successfully to his remedies."

Dr. Curtis would again impress upon the minds of all who contemplate consulting him the duty of Calling Writhout Delay.
